GUIDE

December 2004

Meeting Location

This month's meeting is at Troy Rerucha's. It will be tight, and he could use a few more folding chairs, So bring them if you have some.

Next Meeting is Tuesday, Dec. 14th

There is no competition style for the night, but if you bring it, we'll drink it!

If you have a beer you brewed, bring two. If not, find one in style and bring it also.

By all means, bring any/some of your own homebrew to share.

Feel free to give and accept constructive criticism on beer/mead/cider you're sampling. Knowing what you did right and wrong is all part of making better beer.

Please observe good judgment when imbibing and don't drive while intoxicated.

Meeting Date/Style 2nd Tuesdays 7:30

*Denotes AHA Club-Only Competition

Jan - Irish Red* & Bock - Phil Wilcox

Feb - Dark Lagers - Dave Falther

Mar - Sour Beers* - Jim Hegedus

Jul - The Meading - O'Connors

Aug - Pale Ales -

Sept - German Wheat/Rye - Jeff Ricker

Oct - Oktoberfest -

Nov - Hops, hops & More Hops - Bill S.

Dec - Winter Warmers -

Brewers Mailbag

Dear PCBERS,

Most of my neighbors use the same cleaning and sanitizing chemicals that we supply to our industrial users for homebrewing beers. Most also belong to the AHA. Thus, my reason for contacting your organization. I have been selling our products to the members of their group (at great prices, remember we are an industrial supplier not a retail house) and also helping the organization through a promotion program that we have used with our industrial users. This helps the organization and we get to sample great beer at the same time.

Well here is the pitch. Global Specialty Chemicals has just opened an online store for our chemicals. We only handle chemicals, not other brewing equipment, just chemicals, that's what we do!! We would like to extend this special offer to your organization:

1. Offer your members our cleaning and sanitizing products on-line and at great prices and in larger quantities if they like.
2. Global will give your association a 5% product credit for every dollar your members spend. You can use the credit for our products that the association can use as give away, prizes etc. or what ever you want.
3. From now until January 31, 2005, we will give you an additional incentive of 5% total of 10% in product credit.
4. We believe in knowledge is power- we want to bring to you training on application, use and safety of chemicals so your members can do what they love to do better.

You can either order the specific product or we will give you certificates that the (over)

MONTHLY RECIPE

Anne's Choice Christmas Ale

Philip Fleming, Broomfield, Colorado
First Place, Specialty Beer, 1990 AHA Nat'l's

Anne's Choice Christmas Ale recipe included in Victory Beer Recipes. Reprinted without Permission.

Ingredients for 5 gallons:

- 3 1/2 pounds M&F malt extract kit
- 3 1/3 pounds M&F amber malt extract
- 3 pounds M&F amber dry malt extract
- 1/2 ounce Hallertauer hops (55 minutes)
- 3/4 pound honey (simmer 45 minutes)
- 5 three-inch cinnamon sticks (simmer 45 minutes)
- 2 teaspoons allspice (simmer 45 minutes)
- 1 teaspoon cloves
- 6 ounces ginger root
- 6 rinds from medium-sized oranges (simmer 45 minutes)
- 1/2 ounce Hallertauer hops (five minutes)

Wyeast No. 1007 German ale liquid yeast
7 ounces corn sugar to prime

Original specific gravity: 1.069
Final specific gravity: 1.030

Primary fermentation: 14 days at 61° F (16° C) in glass

Brewer's specifics:

Simmer spices and honey for 45 minutes. Boil malt and hops 50 minutes. Add finishing hops and boil five minutes. Cool, strain, and pitch yeast.

Judge's Comments:

"Cloves dominate aroma. Nice creamy head. Wonderful Christmas spices. This is what I call a spice beer. Full-bodied and very spicy with a sweet finish. Great effort." "Inviting aroma, lots of spice. Good appearance. Good warming, lingering taste. Overall an enjoyable holiday beer. Well made." "Plenty of spice in nose. Flavor has cloves all over with a warming cinnamon backing. Nice winter warmer spice beer."

member(s) so they can cash them in for product or both. We will ask that you pay the shipping. We make it easy; just identify your association or club name in the company section of the on-line order form. We track it and coordinate with you for the credits.

If you are interested in the program please contact me and we will sign you up. Check out our web site and see what we offer. www.chemicals-globalspecialty.com.

This Month's Meetings is at Troy Rerucha's house

The easiest way to get to Troy's house is from West Ave. This is the main North/South street in town. From the North side of town or I-94/127N, take West Ave all the way through town and hang a left on Audubon. 731 Audubon is the address. It's the only driveway on the middle block.

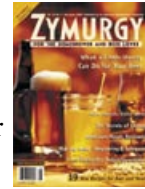

I wouldn't park out front on Audubon but feel free to fill the driveway or use the side street (Briarcliff). 782-5947 is the phone if you get lost. If you live South of town hang a left on Audubon from Fourth St. See you there!!!!

Brewers brewing 2
Brewers learning 2
Brewers drinking 4
10 gallons made...

Please bring your club *Zymurgy* magazines back to each meeting. Others would like to read about what is going on in the beer world. If you just can't part with it, back issues are available through the AHA. Or see Phil for a discount on your own membership.
